About Dhatec

Dhatec specializes in developing and manufacturing solutions to ensure damage free pipes throughout the entire logistic supply chain. We advise pipe manufacturers, coating plants, logistic companies, EPC contractors and end users how to achieve safe, efficient and damage free delivery of pipes in any circumstance or climate.

Companies in the worldwide oil and gas industry are dealing with delays and extra costs due to damages and accidents that occur while handling bare steel or coated pipes. Dhatec makes a significant contribution in organizing safe and damagefree pipe logistics. Our products and technical support improve the quality, efficiency and safety of logistic processes. With this expertise, Dhatec unburdens project managers and educates operational personnel.

Dhatec is built on strengths and core values that are embedded deeply in the DNA of our organization: Innovativeness, flexibility, quality and customer satisfaction. Based on these strengths our development department is in permanent evolution. Existing products are continuously customized to comply with the latest demands and specifications. Special sizes and extreme conditions are our daily work.

Categories

Dhatec's entire value chain is compressed in to three main categories, to create a clear and easy to understand portfolio.

Preservation

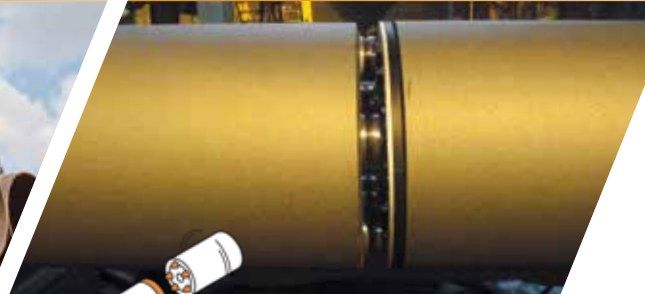

From standard sized pipe closure, to complete project specified preservation solutions for all types of assets.

Logistics

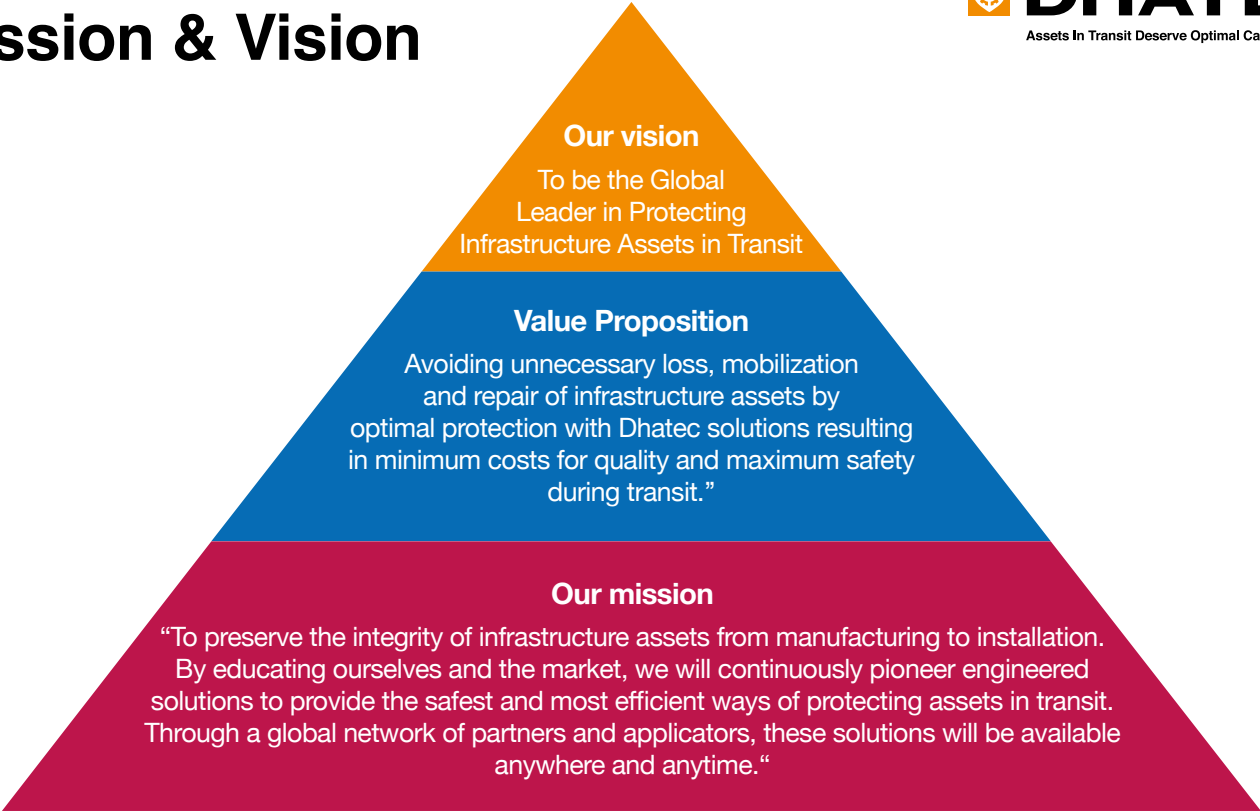

Broad scope of innovative solutions to protect assets during all stages of handling (handling, transportation, storage & construction)

Manufacturing

We offer products to maintain pipe quality during internal and external blasting and coating. Additionally, our products improve the efficiency and quality of these processes.

Mission & Vision

History

1992

Founded in Luyksgestel by Fred Das and Franca van Ham -DHA-TEC

1999

From chicken barn to industrial building. More products for solving customers problems

2000

First website launched: www.dhatec.nl

Investing and Building customer relations and product recognition for 1st product: Innovative Bevel Protector
1992-1995

2003

Milestone!
Millionth Bevel Protector produced!
15th of March

2005

Ildsart van Assema introduced **System88**

2009

Start to play role in major pipeline projects (Nord Stream 1)

2008

Dhatec moves to building at Elskensakker

2012

Franca van Ham leaves company, shares transferred to Ildsart van Assema

2014

Newly developed end cap with breathable membrane developed for South Stream project

SHAWCOR

2015

Acquisition by Shawcor

2017

Nord Stream 2 and Sur de Texas major pipeline project orders won for end-closure and bevel projection.

2016

Pipeline Performance Products formed by combining Dhatec and Canusa-CPS under Pipeline Performance Group

2020

Acquisition by Seal For Life
23rd of December 2020

2020

April 1st, Reorganized under a General Manager structure with own P&L, cost restructuring, vision reset!

2022

Januari 2022 Dhatec moved to a new and its current building at Dragonder Valkenswaard
