

Datasheet Pipe Roller

Release date : 12-06-2013
Revision date : 19-06-2023

General information

The Pipe Roller is an ideal tool for easy and safe manual movement of pipes. The rotating head prevents sudden movements of the Pipe Roller when the pipe starts to roll, reducing the risks of injuries significantly. The handguard avoids contact between your hand and the pipe. Together with the handgrip on the rotating head it makes the Pipe Roller safe to use. The pin protectors on the pins protect the pipe and coating from damage.

Application

The Pipe Roller clamps itself around the pipe wall and when force is applied on the long lever arm, the pipe will start to roll.

Available sizes

Pipe Roller	Weight (kg)	Length (mm)	WT range rotating head (mm)
PR Small	4,6	500	3-25 / 25-50
PR medium	7	840	3-25 / 25-50
PR large	8,2	1200	25-50

Pipe Roller	Weight (lbs)	Length (inch)	WT range rotating head (inch)
PR Small	10.1	19.7	0.12-0.98 / 0.98-1.97
PR medium	15.4	33.1	0.12-0.98 / 0.98-1.97
PR large	18.1	47.2	0.98-1.97

Features

- ✓ Safe rolling of pipes
- ✓ Applicable for different wall thicknesses
- ✓ No damage to the beveled pipe end or coating
- ✓ Suitable for left and right handed people
- ✓ Ergonomic working conditions, easy to use

Material specifications

Material Pipe Roller : Steel 25CrMo4
Rotating head inlay : Steel S235

Product range : For manually rolling pipes
: 102mm – 1.626,1mm (4" – 64")
Product code : PRL

Commodity / HS code : Pipe Roller complete: 73269098
: Spare part Rotating Head: 73269098
