

Datasheet Pipe Stop 50

Release date : 30-10-2013
Revision date : 11-04-2023

General information

Pipe Stop is a system consisting of a steel reinforced connectable rail system with matching blocks to support pipes during storage. Pipe Stop is adjustable for all diameters between 200mm and 2.575mm (7.87" – 102").

Application

The connectable bottom rails are placed on a flattened surface. The blocks can easily be positioned over the rails.

Features

- ✓ Safe pipe support
- ✓ Quick adjustability
- ✓ Suitable for coated pipe surfaces
- ✓ Durable, resistant against oil and moist
- ✓ Less material stress, improved roundness of the pipe

Material specifications:

Rails	: Steel reinforced PE-Compound 4,031m (13.2ft) / 46,5kg (102.5lbs)
Connector parts	: Steel
PS50 Block type A	: PE-Compound, 92° shore A; 5,43kg (12lbs) For pipe diameters: 200mm – 406mm (7.87" – 16")
PS50 Block type B	: PE-Compound, 92° shore A; 12,56kg (27.7lbs) For pipe diameters: 380mm – 670mm (15" – 26.4")
PS50 Block type C	: PE-Compound, 92° shore A; 8,19kg (18.06lbs) For pipe diameters: 660mm – 1.590mm (26" – 62.6")
PS50 Block type D	: PE-Compound, 92° shore A; 16,33kg (36lbs) For pipe diameters: 1.030mm – 2.575mm (40.55" – 102")
Product range	: 200,0mm – 2.575mm (7.87" – 102")
Product code	: PS50
Commodity / HS code	: 39269097

Additional information:

- Application temperature: -45°C / +60°C (-49°F / 140°F)
- For a temperature up to 40°C (104°F) a maximum load on 2 supporting lines: 50.000kg (110,231lbs)
(Each pipe is supported on min. 4 positions)
- For a temperature up to 60°C (140°F) a maximum load on 2 supporting lines: 40.000kg (88,184lbs)
(Each pipe is supported on min. 4 positions)
- Pipe Stop Measure-mate available for efficient installation
